Content

- 1. Intro to Shared Mobility Hubs (SMH)**
- 2. Upscaling with Digital Participatory Platform (DPP)**

What are shared mobility hubs?

- **Physical clusters of shared & electric mobility modes**
- Can **vary in size, type of location, and type of offer**
- **Tailored to local conditions & needs:**
neighbourhoods, city centres

- Bring together **bicycles, e-bikes, e-cargo bikes, e-scooters** and/or **e-cars** and charging infrastructure
- Existing **public transport** network may be connected
- Integrates through **MaaS** with transport system

Potential benefits of modal shift through shared mobility hubs

Reduce emissions through modal shift

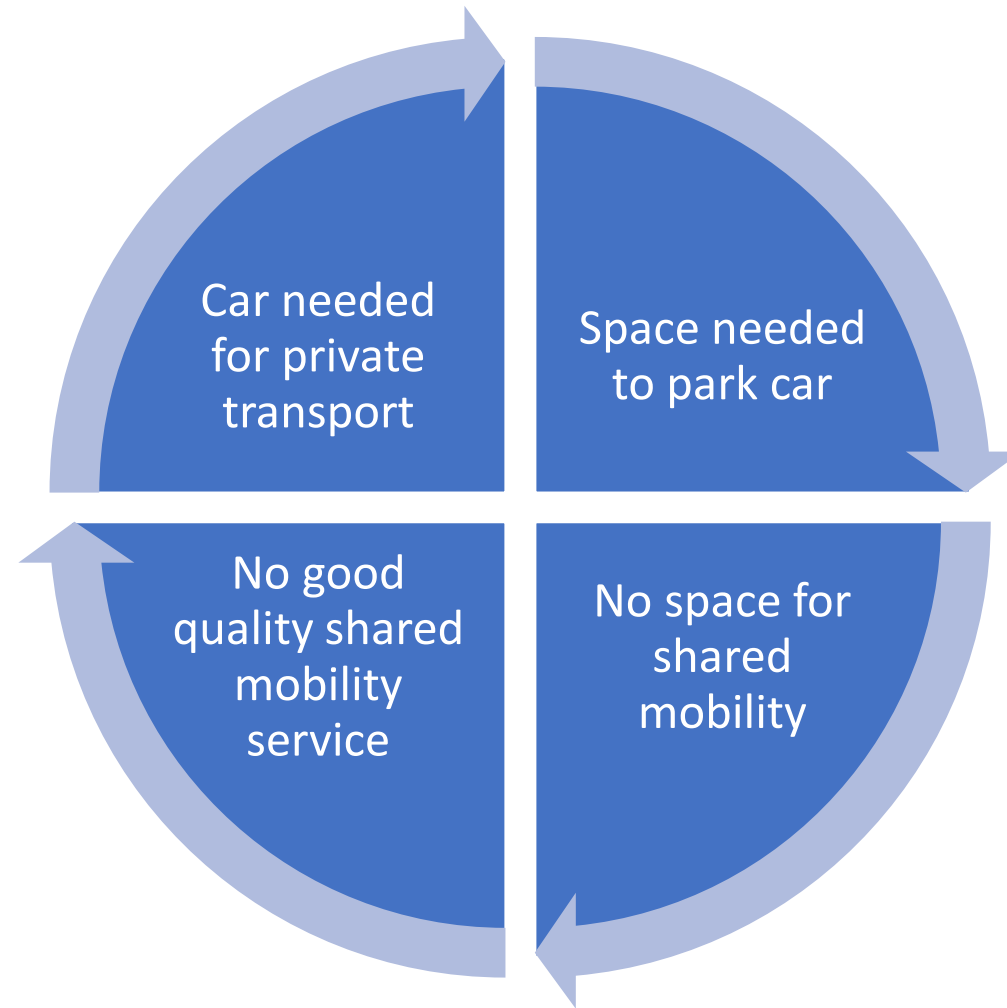

- Improve air quality
- Reduce carbon emissions
- Reduce traffic noise

Improve liveability through sharing resources

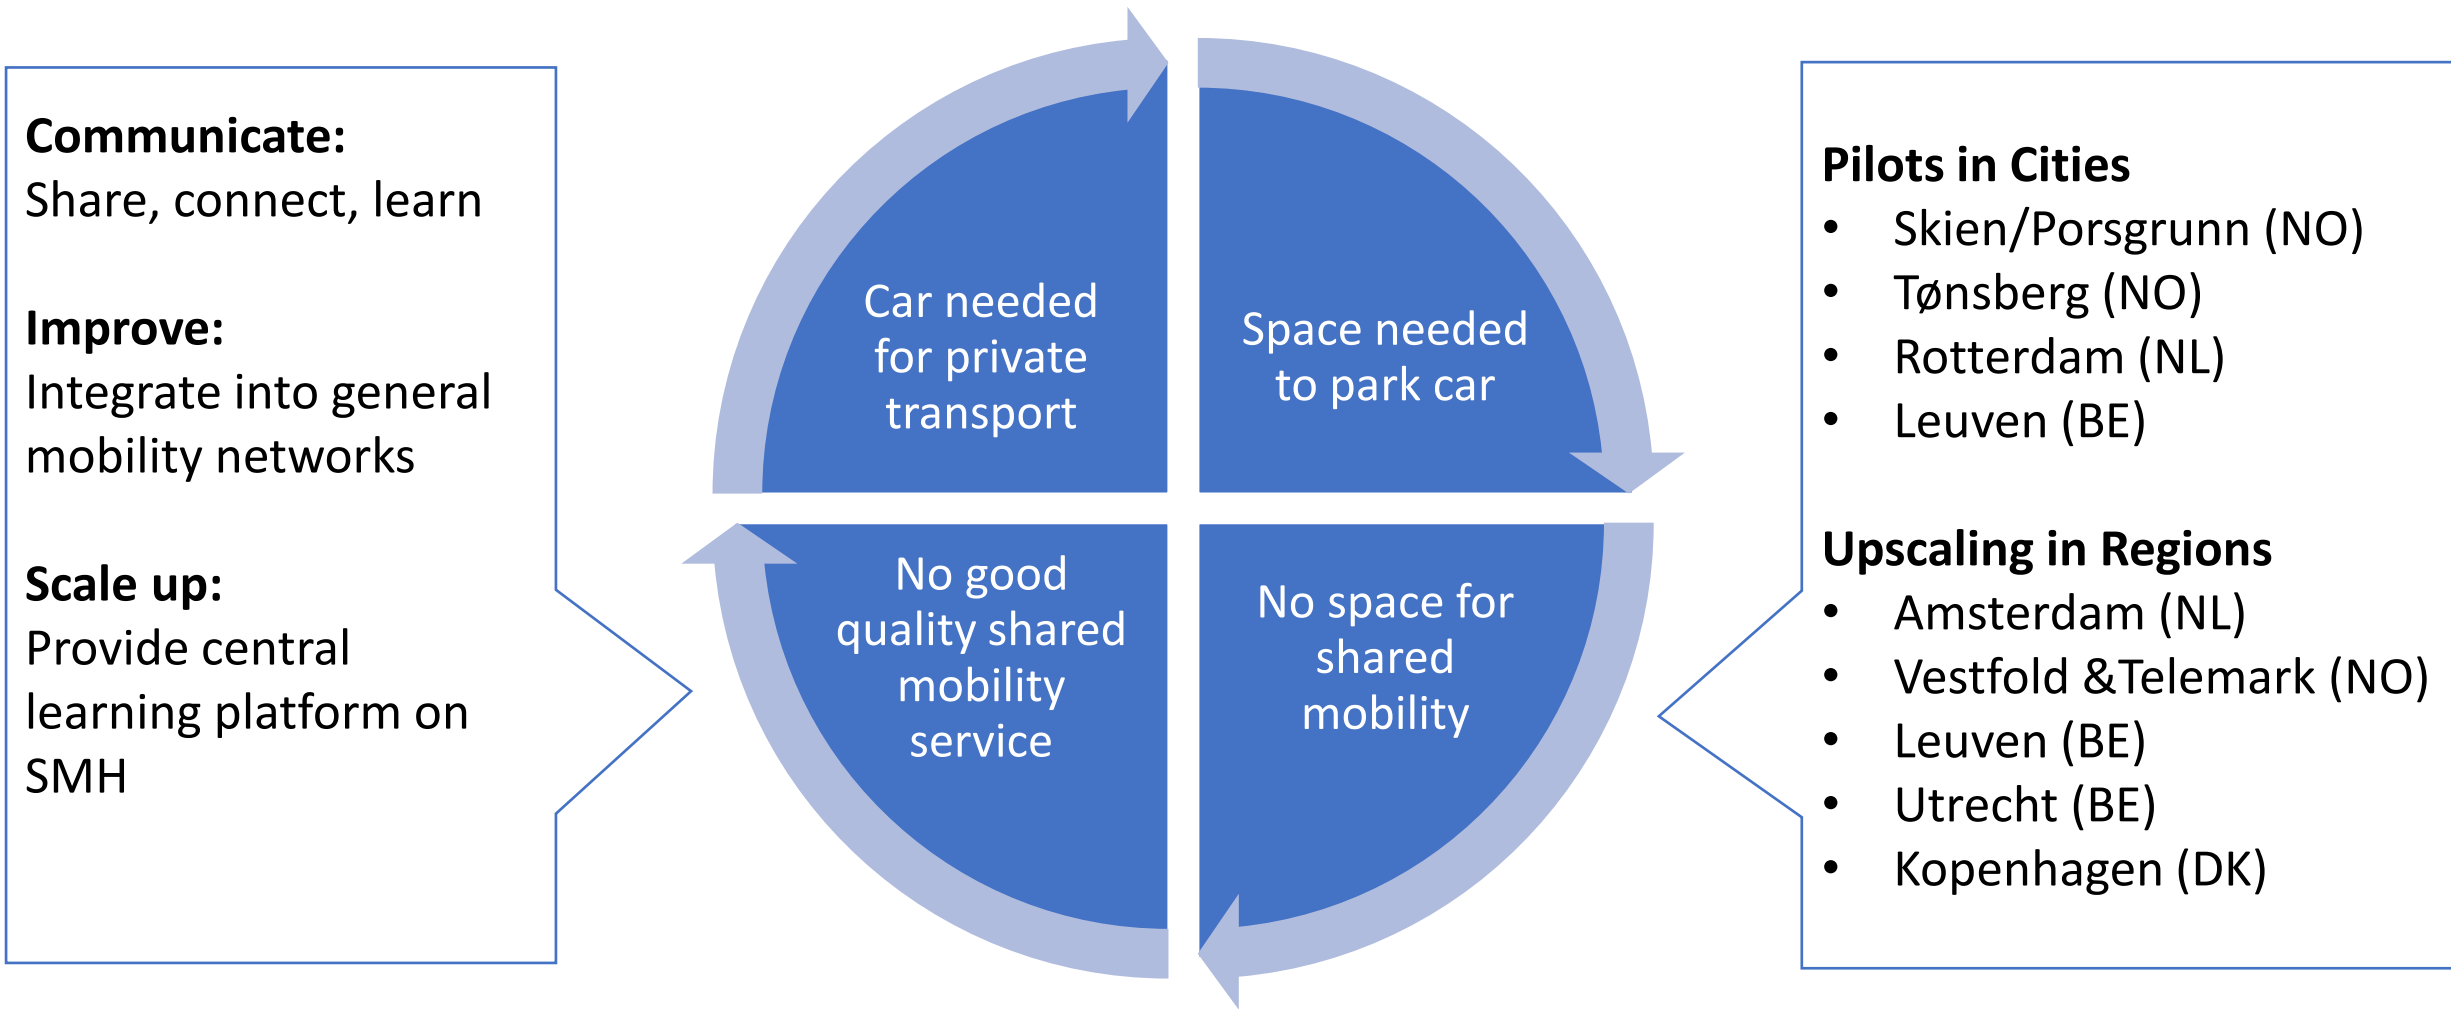

- Improve the quality of outdoor spaces
- Guarantee accessibility
- Facilitate efficient population growth
- ...

Chicken & Egg Dilemma of Shared Mobility

EU Interreg NSR Project ShareDiMobiHub

ShareDiMobiHub aims to create a critical mass.

POLIS
CITIES AND REGIONS FOR TRANSPORT INNOVATION

ShareDiMobiHub builds on past projects

Building blocks providing input for pilots and upscaling actions

Standardized communication between Shared Mobility Providers and MaaS providers (TOMP-api) eHUBS project	Standardized communication between Shared Mobility Providers and public authorities (City Data Standard - Mobility) eHUBS project	Heat maps for best locations of shared mobility hubs based on data analysis (population density, public transport availability, etc.) eHUBS project	Templates for agreement between city authorities and shared mobility providers / regulatory framework and policy frameworks eHUBS project	Implementation guide for effective public-private collaboration Mobi-Mix project	Public participation in innovative mobility methods BSR-Electric project
Best practice reports about planning shared mobility hubs in cities (bottom-up, top down or mixed approaches) eHUBS project	10 recommendations to influence behavior towards shared mobility and to convince car owners to try out shared mobility eHUBS project	Technical and functional requirements description of shared mobility hubs eHUBS project	Several examples of public tenders to select shared mobility providers or to license them to operate in a city eHUBS project	Framework to measure impact Mobi-Mix project	Demonstrating potential applications of various types of urban e- mobility BSR-Electric project
Location selection criteria methodology eHUBS project	Insights into different business models + understanding of business case of shared mobility providers versus city societal goals eHUBS project	Examples of branding and communication material and a toolkit for behavior change eHUBS project	Insights on most interesting target groups, travel behavior change and barriers for change (nudging techniques) eHUBS project	10 Golden rules for Shared Mobility + Book: A Planner's Guide to the Shared Mobility Galaxy Share-North project	Guidance for public authorities, companies, planners and transport providers for integrating sustainable solutions into urban transport strategies BSR-Electric project

Pilot Example: Leuven

Status (30/9/22)

<https://leuven.be/mobipunten>

- 42 HUBS (38 eHUBS)
- 30 Cargoroos (30 stations)
- [40 Urbees (5+1 stations, 2 with charging infrastructure) (till 30/6/22)]
- 24 EVs (cambio + partago) + 130 shared cars (all station-based)
- 124 shared bikes (PT)
- 60 P2P cars + 1 P2P e-cargo bike
- Extra: parcel lockers added at 14 eHUBS (pilot project ecozone: emission-free post and parcel delivery)

Leuven: Status-Quo

Michotte: bus + e-cargo bike

Leuven: Status-Quo

Haasrode/
Gasthuisberg:
bus + e-bikes

Leuven: Status-Quo

De Becker-Remy:

bus + e-cargo bike + EV + shared cars +
parcel locker

Leuven: Status-Quo

Rector de Somer:

Bus + e-bikes+
e-cargo bike +
additional services

Leuven: Status-Quo

Heverlee Station: train,
bus, bikes, e-bikes,
e-cargo bike and cars

Leuven Challenges: increase uptake

- **More and better offer**
 - ◆ More EVs, E-cargo bikes, E-bikes
 - ◆ More eHUBS on the longer term
- **More demand**
 - ◆ Nudging
 - ◆ MaaS
 - ◆ Specific target groups
 - ◆ Mixed user groups
- **Policy**
 - ◆ Evidence-based policies
 - ◆ More integration (e-mobility, shared and multi-modal mobility, urban logistics, smart city, public works)

Pilot's goal: Creating a sense of necessity -> to let them experience

Pilot Example: Rotterdam Mobility Challenge

Mobility challenge: 6 month in 2 districts

- Residents opt to not use car for 1 to 6 months
- Free car parking in municipal car park
- Costs covered for owned car + shared transport budget

New Hubs

- 7 providers shared bicycles, scooters, cargo bikes
- 6 providers shared electric car (small, large, vans)
- Public transport

Involvement

- Convert freed-up parking spaces (districts decide on usage)
- Districts decide to keep / discard after evaluation
- Other districts may decide to scale up

Roadmap DPP

Method: Towards a DPP

Partner survey
(Jan 2023)

Workshop Ghent
(March 23)

Stakeholder survey
(Mar 23)

Methods Partners' Survey

1. Survey with **11 questions**
2. Only **partners** addressed
3. **3 weeks** survey period (23. Jan to 12. Feb 2023)
4. Mainly **open questions** to collect as much info as possible
5. Received 8 out of 16 replies (50%)
6. **Clustering** of answers by hand.

Methods Stakeholder Survey

1. Online-Survey with **7 questions + subquestions**
2. Network / Public addressed
3. **3 weeks** survey period (10. Mar to 31. Mar 2023)
4. Mainly **multiple choice questions** to collect leverage auto-evaluation
5. Received 46 replies
6. **Bachelor thesis** to evaluate results

Stakeholder survey was shared on websites & social media networks

The image shows a LinkedIn profile for Eric van Dijk, who works at the Region of Hovedstaden. Below the profile, there is a post from ShareDiMobiHub. The post features a graphic with the text "ANSWER OUR SURVEY ON STAKEHOLDER NEEDS!" and an illustration of a person thinking. The text of the post reads: "Our partner Hamburg University of Applied Sciences is looking for input on developing a digital information and learning platform for the #European #NorthSeaRegion. Its purpose? To share general and specific knowledge on shared #mobility hubs, sharing best practices and key recommendations. If this sounds like something you might be interested in, answer our survey now to inform us of what kind of content you might be looking for! Find out more at this link: <https://buff.ly/3mYf5G> #MobilityHubs #MobilitySurvey #UrbanMobility #Transport #SustainableMobility #SustainableTransport #Maas #Mobility #InterregNorthSeaRegion #EUPProjects".

The image shows a LinkedIn post from Province Utrecht. The post text says: "Province Utrecht is lead partner in the #sharedmobility #sharedmobility project. Are you a stakeholder in (European) sharedmobility? please fill in the survey on stakeholder needs by our partner HAW. #smartsustainableregions #utrechtregion". Below the text is a graphic with the text "ANSWER OUR SURVEY ON STAKEHOLDER NEEDS!" and an illustration of a person thinking. The post also includes a link to the survey: <https://buff.ly/3mYf5G>.

Partners' survey results:

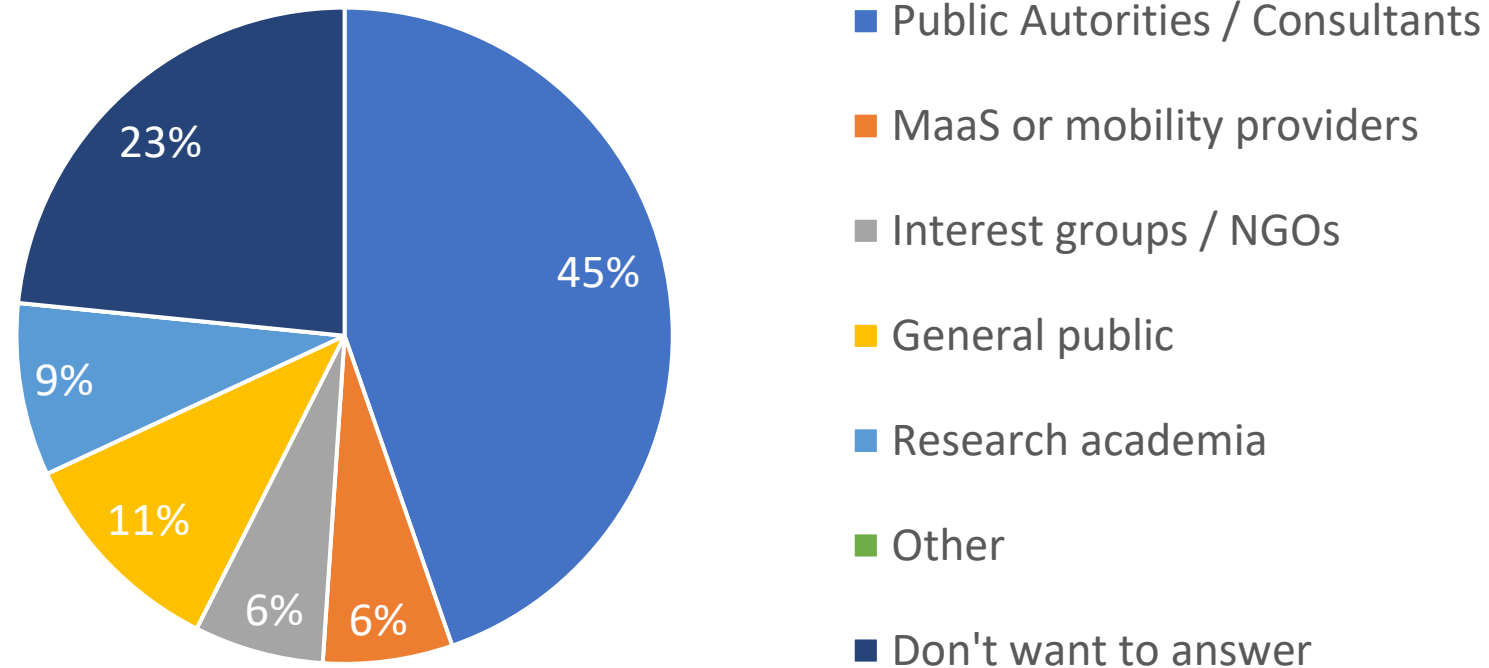

Who interacts with the DPP?

Stakeholder Survey

To which stakeholder group do you count yourself?

How do you rate your knowledge on Shared Mobility Hubs?

Learning Goals of the Stakeholder Groups

	Gain a general SMH overview	Receive detailed SMH expert information	Read other stakeholders' SMH experiences	Share SMH experiences	Grow a personal network for SMH	SMH Implementation Training				
Local and regional public authorities	x	x	x	x						
Mobility & Maas providers		x		x						
Interest groups, NGOs		x			x	x				
General public	x		x		x					
Research and academia	x	x		x						

Partners' Survey: Does the DPP have a networking target?

Partner
survey

Stakeholder
survey

1. No Networking,
only inform

2. Basic Links
point to networks, i.e.
MAAS Alliance,
internal city networks

3. Deep Links
from SDMH examples to
experts or responsables
for outputs, products,
services

4. Active Networking
Build network of
experts and cities
with different levels
of shared mobility

In which ways do you like to learn?

Q: Who are the main stakeholder groups / who should be addressed?

A: Main stakeholders condensed into two personas

Emma

**Mobility Decision Maker, Senior Level,
Public transport officials in NSR**

- **Prior knowledge:**
Master level education, broad idea of SDMH, fluent in English
- **Motivation:**
Improved decision-making capacity with regard to local/regional development
- **Capacity:**
low due to heavy day-to-day workload:
2-3 h max

Practical use for hands-on knowledge to decide on design, build and drive shared and digital mobility hubs

Hans

**Young professional in SMEs, Civil Organisations /
NGOs; Master student**

- **Prior knowledge:**
Master level education, broad idea of SDMH, fluent in English
- **Motivation:**
Contribution to improving and expanding mobility services on own local/regional scale. Networking and exchange of good-practices
- **Capacity:**
medium/large: 60 h max

Involved in operations, with exploitation and upscaling potential

Stakeholder Survey: Example content related question

6a. Which goals of shared mobility hubs should have their own category/tag?

Shared Mobility Hubs

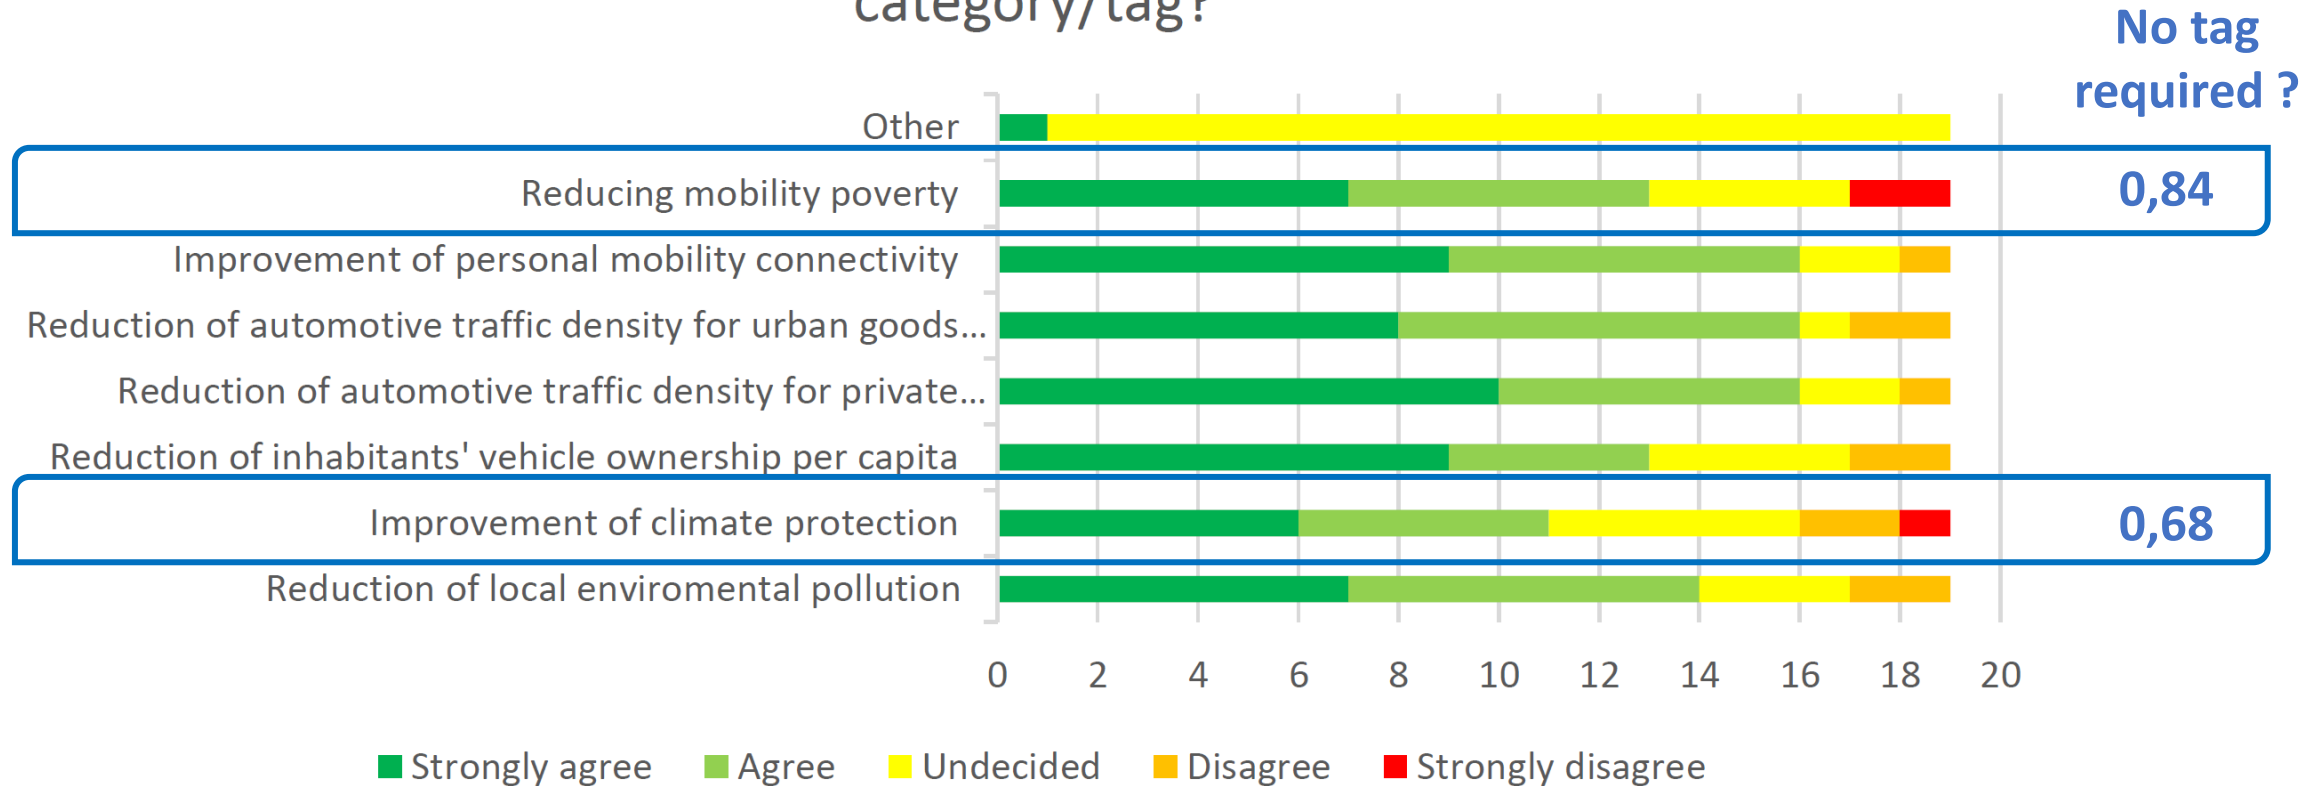

6a. Which goals of shared mobility hubs should have their own category/tag?

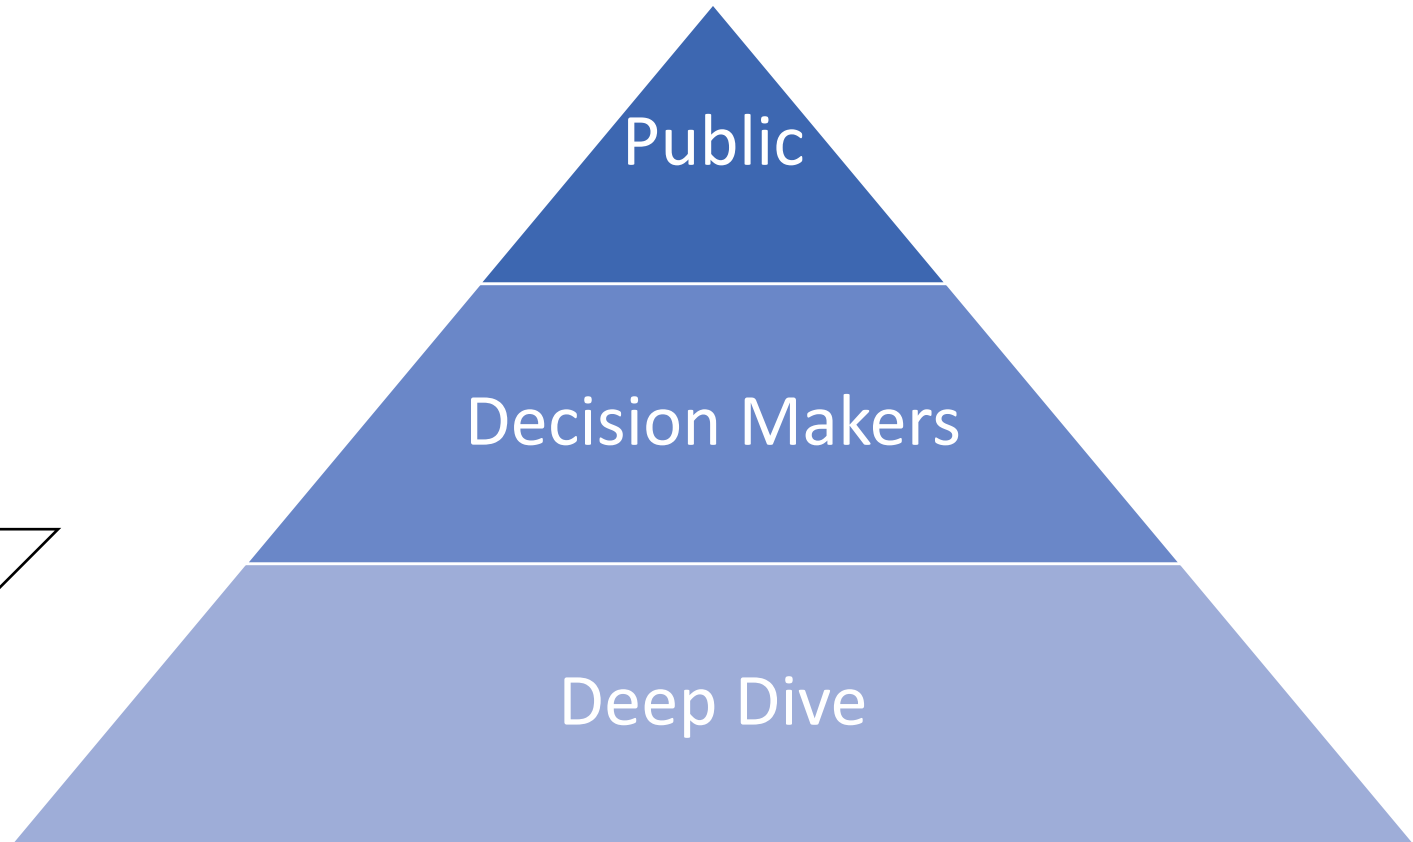

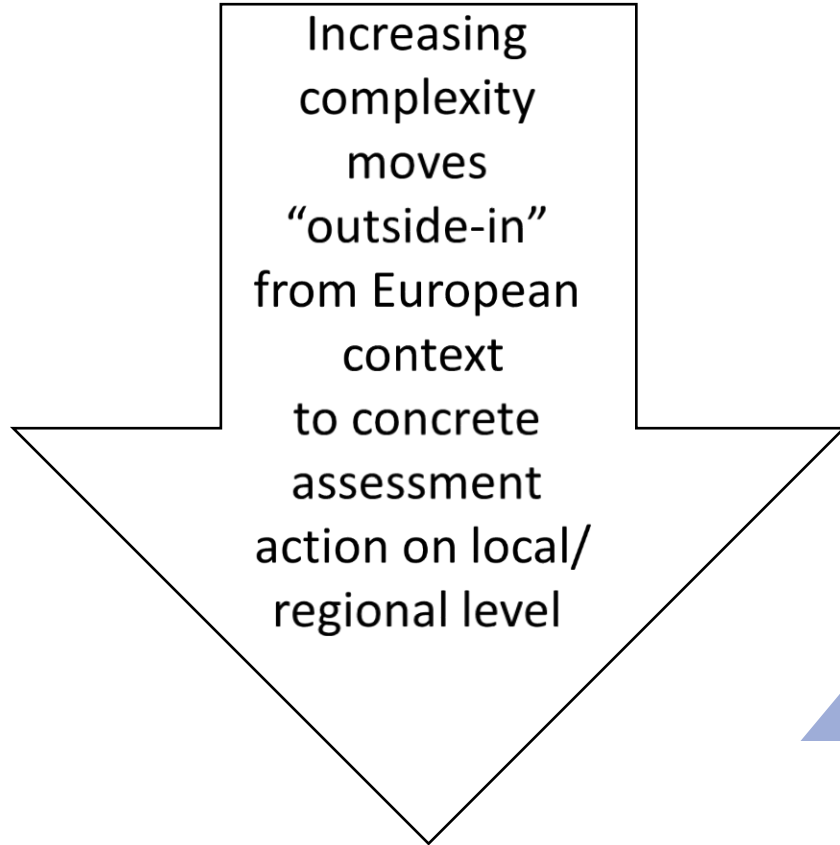

Shared Mobility Hubs

6a. Which goals of shared mobility hubs should have their own category/tag?

Q: Complexity & Content
A: Three main levels

Q: Storyline and Curriculum:

A: Pre-phase, sequence of 5 increasingly complex modular assignment cycles, and fade-out

Opportunities + Challenges

Concepts + Technologies

Development + Implementation

Funding + Procurement

Benefits + Implications

Summary

Shared Mobility Hubs

- Many best practice examples & knowledge
- Chicken & egg problem not overcome
- Needs integration & upscaling

Quelle: <https://www.hvv-switch.de/de/hvv-switch-punkte/>

Upscaling with DPP

- Bring together stakeholders
- Enable regional learning
- Include urban goods
- HAW Hamburg is proud take part in shaping sustainable urban mobility

Thank you
