

AI IN TEACHING AROUND THE WORLD

Examples of the Interplay between AI and Data Literacy in Education

Join the workshop
22. Nov. 2024
9:00-12:30 CET

Online Workshop within the DAAD project HAW.Resilient

Share international perspectives // Discuss AI in enhancing data literacy //
Explore collaborative opportunities

PANELISTS

Prof. Dr. Ulrike Spree
University of Applied Sciences Hamburg

Developing Data Literacy Skills for Evaluating AI Tools in Modern Education

Mr. Divakaran Reddy
Durban University of Technology

Navigating the Digital Frontier – AI in Education

Prof. Dr. Pei Yin
University of Shanghai for Science and Technology

Empowering Teaching and Learning with Generative AI: Reflections and Practices

Prof. Dr. Jonathan Phan
California State University Long Beach

AI in Academia: Cultivating Creativity and Promoting Principles

Prof. Dr. Jordi Linares Pellicer
Universitat Politècnica de València

TBD

Mr. Wiemer Kuik
HU University of Applied Sciences Utrecht

AI-Tutors: A New Dimension in Student-Driven Feedback

Mr. Mika Suutari
Turku University of Applied Sciences

Arene's Traffic Light Model – Guiding AI Utilization in Learning Tasks

Prof. Peter Kabel
University of Applied Sciences Hamburg

Interactive Session: Discovery how AI transforms design, with striking visual examples from our latest explorations in seminars

Prof. Dr. Marina Tropmann-Frick
University of Applied Sciences Hamburg

Wrap-Up: Summary of Key Points and Future Steps
