

The **Inter-University Sustainable Development Research Programme (IUSDRP)**, coordinated by the Research and Transfer Centre “Sustainable Development and Climate Change Management” at the Hamburg University of Applied Sciences (HAW Hamburg), serves as a collaborative research infrastructure, facilitating interdisciplinary teams among member universities.

AIMS

IUSDRP supports the implementation of the 2030 Agenda for Sustainable Development by:

- Fostering an **interdisciplinary** and **collaborative working environment** to foster international **partnerships** and support project development within and across institutions;
- Linking and engaging with the sustainability **research** community at member universities in the joint training of **PhD students** and the organisation of **events**;
- Catalysing and facilitating the production of high-quality joint **publications and books**.

ACTIVITIES

IUSDRP undertakes activities focusing on the following main areas, all associated with sustainability science:

MEMBERSHIP OPTIONS

Regular IUSDRP Members have access to the network's news and opportunities regarding publications, events, and projects, and have the possibility to share news from their institutions with the other members.

Premium IUSDRP Members have access to all the opportunities offered to Regular Members, plus a set of benefits, such as the status of priority partners to receive news and opportunities, member-only discounts, no project preparation costs, organisation of scientific conferences, advice and support, and much more. Please contact our team for more details.
