

# Symposium on Using Artificial Intelligence in Sustainability Teaching and Learning

12-13 June 2025

Faculty of Economics, Administrative and Social Sciences, MEF University, Istanbul, Türkiye

## What is it about?

The Symposium aims to gather experts, academics, industry leaders, and policy-makers to **discuss approaches, methods, tools, and strategies for deploying AI in efforts to promote sustainable development** as a whole and the UN Sustainable Development Goals (SDGs) **in particular in the context of higher education.**

It will:

- Present current initiatives** on AI on sustainability in higher education.
- Discuss** current strategies and **strategic plans** for integrating AI and Sustainability into university **operations and curricula.**
- Introduce collaborative initiatives** and ongoing collaboration between **universities, industries, and communities.**
- Debate the effectiveness** of current **policies** to support AI use in Sustainability in higher education.
- Exchange ideas** on how to steer **students' involvement** and use of AI in Sustainability projects, preventing undesirable effects.

## Key topics

The Symposium is being prepared based on the perceived need to better understand how to leverage AI in sustainability efforts to the advantage of **teaching staff and students.**

- Introducing AI tools and techniques
- Practical AI applications in sustainability teaching and learning.
- AI and curriculum development
- Collaborative initiatives that leverage AI for sustainability education.

### OPPORTUNITY TO PUBLISH:

International Journal of Sustainability in Higher Education.
